## The Garden

By Charlie

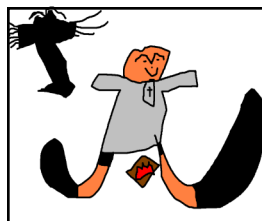

The garden is fun. We get to pull out weeds with our shovels. At spring the flowers sprout. There are many things to do like taking weeds out of the garden; we can plant apples, oranges, peaches, strawberries, and sunflowers. The sunflowers get really tall. Sometimes there are many surprises in the garden because Mrs. Demichei tried to surprise us today with a tulip in the garden.

Then I glued some cotton balls on my paper plate ears. Then I glued some on the face. Then Ms. Brown cut out the eyes for me. Then I wore it around the classroom.
