

KINDER GAZETTE

Praying the Rosary

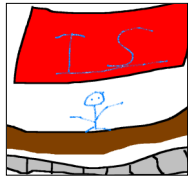

By Caitlin

I am praying the rosary to Mother Mary. First, we do the sign of the cross. Then we say the "Our Father" and "Hail Mary" and the "Glory Be". This week we are praying the "Sorrowful Mysteries".

The Talent Show

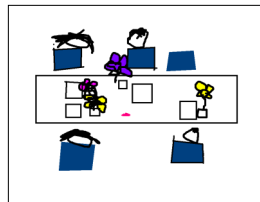

By Shawn

At the gym from St. Rose School, first we saw baton twirlers, singers, piano players, and magic tricks. We saw gymnastics and a violin player.

Art Class

By Nadia

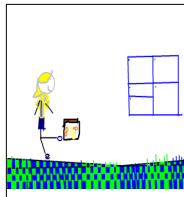

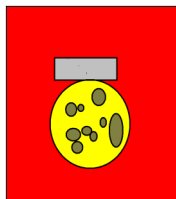

We painted flowers with "water paint". We looked at flowers and then we painted

them on a piece of white paper. My flower was brownish orange and amarillo and it was black. And my flower was a pansy. The flower I painted was off the page.

The Guessing Jar

By Teeg

Today we guessed from the jar. There's some round beads in it. First I hold the jar and we guess how much there is in the jar. Then we give it to someone else. Then they have to do the same thing. Then we do something else. Then we write our guess on the board. Then we find out how many beads there are in the jar. Ms. Brown dumps the beads out on the tray. Then we count them by 10's.

The Guessing Jar

By Julia

We bring jars to school and guess how many beads it can hold. We check each jar to see if it holds 100 beads.

Painting Our Goldilocks and the Three Bears Shirts

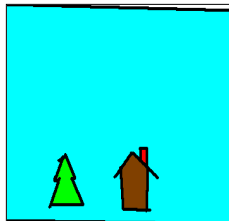

By Ava

When I went to Art Center, Mrs. Demichei gave me a white shirt. Then Mrs. Demichei helped me stamp it with two evergreen trees and one bear.

Painting

By Charlie

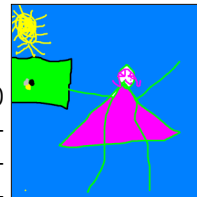

We painted trees on the scenery. It was a lot of fun. The trees were green; the house is brown. We will have a play about the three bears.

Bumble Bee

By Caitlin

We were painting 10 bumble bees at Centers. We used our fingers to make a bumble bee. We used gray paint for the wings, black paint for the head and yellow paint for the body.

Centers

By Breanna

We have Centers on Wednesdays. We have Computer Center, Writing Center, Art Center, Book Corner, Block Center, Garden Center, and Painting Easel. It's my favorite day.

Saint Rose School

May 22, 2010

Garden Center

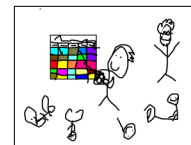

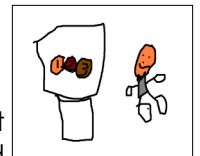

By Kyle

We are going to the garden and we were looking to see if our spinach was growing. We saw our strawberries. We saw two strawberries were bitten. There were little flowers on the apple tree that had no petals. I saw lots of lettuce growing and they were really big.

Computer Center

By Jake

It is about adding and subtracting. The levels are 1, 2, and 3. We had to play it three times. $5 + 2 = 7$, $2 + 2 = 4$, $3 + 3 = 6$ These are some examples of math problems.

The Calendar Board

By Aedhan

Ms. Brown calls me for Calendar. First we do the month. Then we do the number for today. Today is Monday, May 17, 2010.

Drawing the Butterfly

By Max

It's some people at my table drawing a butterfly. We're drawing the butterfly now because we only drew the stages before.
